PART IV (3)

We generated revenues of approximately \$1,884,000 and \$2,510,000 for the three months ended June 30, 2020 and 2019, respectively and approximately \$3,000,000 and \$5,297,000 for the six months ended June 30, 2020 and 2019, respectively. Such revenues were primarily derived from sorbent product sales. The decrease from the prior year periods is primarily due to decreased generation in the coal fired power sector principally due to renewables and low natural gas prices. Our net loss for the six months ended June 30, 2020 decreased by over \$1 million compared to the prior year period. Although revenues decreased for the six months ended June 30, 2020 compared to the six months ended June 30, 2019, the net loss for the six months ended June 30, 2020 decreased compared to the prior year period primarily due to the substantial decrease in total costs and expenses principally due to the decrease in stock based compensation allocated in selling, general and administrative expenses and the gain recognized during the six months ended June 30, 2020 from the on change in fair value of profit share.
